Intrinsically motivated team builder with a strong interest in developing effective and maintainable workflows and solutions.

EDUCATION

North Central College

Fall 2009 to Spring 2013

Management of Information Systems & Computer Science

EXPERIENCE

Sixth Edge LLC, Independant Contractor

Ames, IA - 2013 to 2017

Sixth Edge develops web-based "software as a service" in the educational field. Working with a team to develop, host and support both open source and proprietary projects with modern web practices and workflows.

Accomplishments

- Developed and maintained Ruby on Rails and Ember.js Applications
- Implemented agile based solutions to our workflow process
- Created and managed project documentation systems and practices

Blitz Tech LLC, Independant Contractor,

South Beloit, IL - 2011 to 2013

During my time at Blitz Tech I performed a wide variety of technical projects for local businesses building solutions for their individual needs.

Accomplishments

- Created and upgraded various content management system.
- Refactored an in-production java application.
- Installed telephone and ethernet networks along with security camera systems.
- Programming and documenting a custom invoicing system.

Lextech Global Services, Internship

Lisle, IL - 2010 to 2011

Lextech is a company that specializes in creating custom mobile applications for businesses. Employing small development teams to tackle the project's specific requirements and their corresponding devices.

Accomplishments

- Developed for iOS, Android and Blackberry (RIM) for BlueCross Blueshield of Illinois.
- Built and ran test cases for networked applications for a variety mobile devices.
